

# REYNALDO QUISPE SANCHEZ

La Paz - Bolivia | (591) 73090695  
reynaldoqs@gmail.com

## Summary

---

**UX-Focused Full Stack & Mobile Developer** with 7+ years of experience creating visually refined, user-centered digital products for web and mobile platforms. With a background in **graphic design** and **backend development**, I bridge design and engineering by translating UX principles into clean, accessible, and scalable user interfaces. I specialize in building intuitive UI systems while ensuring design consistency, usability, accessibility, and pixel-perfect implementation across the full stack.

## Experience

---

### Making Sense | Remote

**Web Developer/ Mobile Developer / UX Developer | 09/2022 - Present**  
**Front-End Developer – CCI Stock Market App & Dashboard**

**Tools & Technologies:** Next.js, React, GraphQL, React Query, Material UI, Auth0, UXCam, Datadog, Storybook, REST APIs, HTML, CSS, Git

- Built and maintained a **stock market web application and analytics dashboard (CCI)** using **Next.js**, with a strong focus on **performance, SEO, accessibility (a11y), and scalable component architecture**.
- Implemented **data-intensive dashboards** by integrating **GraphQL APIs** and managing server state with **React Query**, ensuring efficient data fetching, caching, and synchronization.
- Developed **role-based access control (RBAC)** and secure authentication flows using **Auth0**, implementing **user roles and authorization rules** across different dashboard sections.
- Translated **Figma designs** into **pixel-perfect, responsive user interfaces** using **Material UI**, ensuring visual consistency across browsers and screen sizes.
- Monitored user behavior and application performance using **UXCam** and **Datadog**, helping identify usability issues and performance bottlenecks in production.
- Delivered **internationalized (i18n) and structured UI solutions**, collaborating closely with backend, product, and design teams to support financial data visualization and user workflows.
- Contributed to **front-end architecture decisions**, code quality standards, and the evolution of a **scalable, reusable dashboard UI system**.

### Making Sense | Remote

**Full Stack Developer/ UX Developer | 02/2022 - 09/2023**  
**Shop Your Way – Couponing Mobile App (React Native)**

**Tools & Technologies:** React Native, TypeScript, Redux, Storybook, REST APIs

- Developed a **couponing mobile application** for **iOS and Android**, enabling users to **redeem reward points earned through card usage for gifts and discounts**.
- Designed and built a **scalable component library** using **React Native and Storybook**, improving UI consistency, reusability, and development efficiency.
- Implemented **user authentication, push notifications**, and **in-app purchases** to enhance user engagement and retention.
- Optimized front-end performance through **efficient state management, lazy loading**, and component-level optimizations.
- Used **Storybook as a development and documentation tool**, enabling isolated component development and smoother collaboration across teams.

### Making Sense | Remote

**Full Stack Developer / UX Developer | 07/2021 - 01/2022**  
**Vecinos – Mobile App & Landing Page**

**Tools & Technologies:** React Native, React.js, Vite, TypeScript, Redux, React Query, Firebase, REST APIs

- Developed a **social network mobile application** for **iOS and Android** using **React Native**, delivering smooth, responsive, and reliable user experiences.
- Built and maintained a **marketing landing page** using **React.js and Vite** conversion-oriented UI.

- Managed **server state and data fetching** using **React Query**, improving caching, synchronization, and overall data consistency across the app.
- Implemented **user authentication**, **push notifications**, and **in-app purchases** to increase user engagement and retention.
- Collaborated closely with designers to deliver **pixel-perfect UI/UX**, ensuring consistency across **mobile and web experiences**.

#### Jalasoft | Remote

Full Stack Engineer | 11/2019 - 01/2021

Front-End Developer – Builtout (Real Estate Platform)

**Tools & Technologies:** React.js, JavaScript/TypeScript, Ruby on Rails (API), REST APIs, HTML, CSS, Git

- Developed and maintained a **landing page** for a real estate platform using **React.js**, with a strong focus on **UI/UX**.
- Built **reusable and maintainable React components**, improving UI consistency and applying **KISS, DRY, and SOLID principles**.
- Integrated front-end applications with **Ruby on Rails APIs**, handling data fetching, state management, and error handling.
- Collaborated closely with backend services to ensure **reliable data flow**, secure interactions, and smooth front-end integrations.
- Worked with cross-functional teams to deliver features aligned with business goals in the **real estate domain**.
- Contributed to **CI/CD workflows and deployment processes**, ensuring stable and consistent front-end releases.

#### Agetic Bolivia Bolivia | La Paz

Full Stack Engineer | 02/2018 - 12/2018

Back-End Developer – Government Digital Services

**Tools & Technologies:** Node.js, Express, REST APIs, Swagger (OpenAPI), Authentication & Authorization, API Versioning, Service Integrations, Vue.js

- Developed **government applications**, focusing on **back-end services** that support national digital platforms, with **Vue.js** used for **integration and validation of API consumption**.
- **Designed, built, and documented RESTful APIs** using **Swagger (OpenAPI)**, consumed by multiple government agencies.
- Implemented and maintained backend services and system integrations, enabling reliable communication across public-access platforms.
- Contributed to the **modernization of government systems** by improving backend performance, reliability, and service orchestration.

#### Camex Bolivia | La Paz

Software Intern | 07/2017 - 12/2017

Landing Page Maintainer (Intern)

**Tools & Technologies:** HTML, CSS, WordPress

- Assisted in the design, implementation, and maintenance of the organization's landing pages and web system.
- Implemented **UI improvements**, fixed front-end bugs, and ensured consistent functionality across different sections.
- Maintained and updated **WordPress-based pages**, improving layout, content structure, and responsiveness.
- Collaborated with team members and participated in meetings to understand business requirements and translate them into technical front-end tasks.

## Skills

---

Next.js, ReactJS, Vue.js, Astro, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind, shaden, component architecture, SEO, Express, REST APIs, PostgreSQL, MongoDB, Sequelize, Mongoose, Model Context Protocol (MCP), design systems, scalable UI patterns, CI/CD, Git, UX/UI design, Flutter, Playwright, React Native, Cursor, Storybook

## Education

---

Universidad Pública de El Alto | El Alto - Bolivia

Bachelor's Degree in International Business | 12/2019

First Class Institute | La Paz - Bolivia

Associate Degree in English | 11/2019

Languages

---

Spanish, English
